

The Raja's Secret

Archeologist Mandira Map had found herself in Raja Sahib's Fort searching for the lost gold. But wait! Raja Sahib put four curses on the path to the treasure so only the worthy could get his treasure. Help Mandira Map decode the riddles, and decipher the clues to get to the treasure.

The obstacles

Don't pass before answering them correct!

Raakshas

They want something but they speak gibberish. Figure out what they want to move forward

Mantra Lock

Get the correct Mantra to unlock the path forward

Rishi's Puzzle

Solve the puzzle of the Rishimuni to get a route to the treasure

Tantric Curse

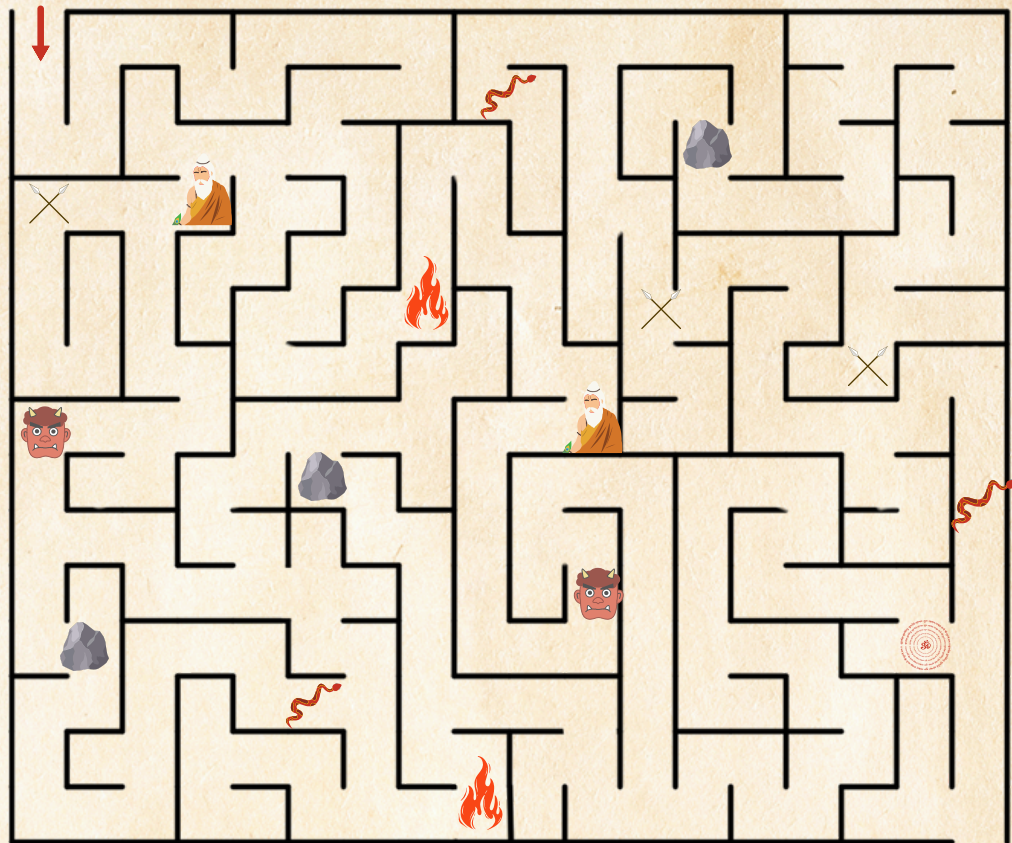

King placed a curse. Figure out how to remove the curse, to move forward

NO ENTRY

Traps set to block your path.
Find another way.

Good luck!

The obstacles

RAAKSHAS

BOE DATE TOE SHIPS!!
BOE DATE TOE SHIPS!!
BOE DATE TOE SHIPS!!!

RISHI'S PUZZLE

Agni says: "Vayu lies."
Soma says: "Agni and I speak the truth."
Vayu says: "Soma lies."
Only one speaks the truth.
Who is it?

TANTRIC CURSE

I vanish when the land is dry,
I fall like tears from weeping sky.
I heal the wound, I quench the thirst—
If you know this... you can break this
curse.

MANTRA LOCK

NA,YA,MA,SHI,OM,VA,HI
Start with silence, end with surrender.
The destroyer blesses those who
remember.
(Arrange the words in order to get the mantra)

TIMELINE

Dr. Time, a scientist, is lost in time! He was travelling via his time travel watch when it exploded and sent him hurtling through his timeline. He doesn't remember his life, and needs to remember the events in order to go back to his present! Help him arrange his life in order.

Dr. Time found clues for certain events in his life after searching. Now help him arrange things in order based on the clue he gathered.

There are events in the sheet, and clues. Place the number of the events in order within the circles to complete the timeline.

GOOD LUCK!

EVENT SHEET

1 Built a magnet-powered toy car	2 Built a robotic arm for high school project	3 Learned to code simple programs in middle school
4 Made the first prototype for the time travel watch	5 Took apart a flashlight to see how it worked	6 Made a baking soda volcano that overflowed everywhere
7 Designed a home security system when left for college	8 Patented my first real invention	9 There was an explosion!

CLUES

- He remembers building the robotic arm before designing home security.
- He learned coding after the volcano but before the security system.
- The flashlight tinkering was one of his first experiments.
- The watch exploded before he got stuck in the time loop.
- The science fair win came after the toy car project.
- The patented invention came after college, and before the watch.

Arrange the events numberwise based on clues

Won my first school science fair

I left for college!!

I AM LOST!!

GATE PASS

Start at the yellow dot and reach the pink dot by following the arrows.

Each arrow has a color that tells you how it works and direction you must follow:

- Green arrow/gate: If you pass through it once, you must pass through it again somewhere in your path.
- Blue arrow/gate: You can only pass through it once. If you've used it, don't go through it again.
- Red arrow/gate: You can't go through this at all – avoid it!

You don't need to use every gate – just find the shortest path to the pink dot without using any red gates.

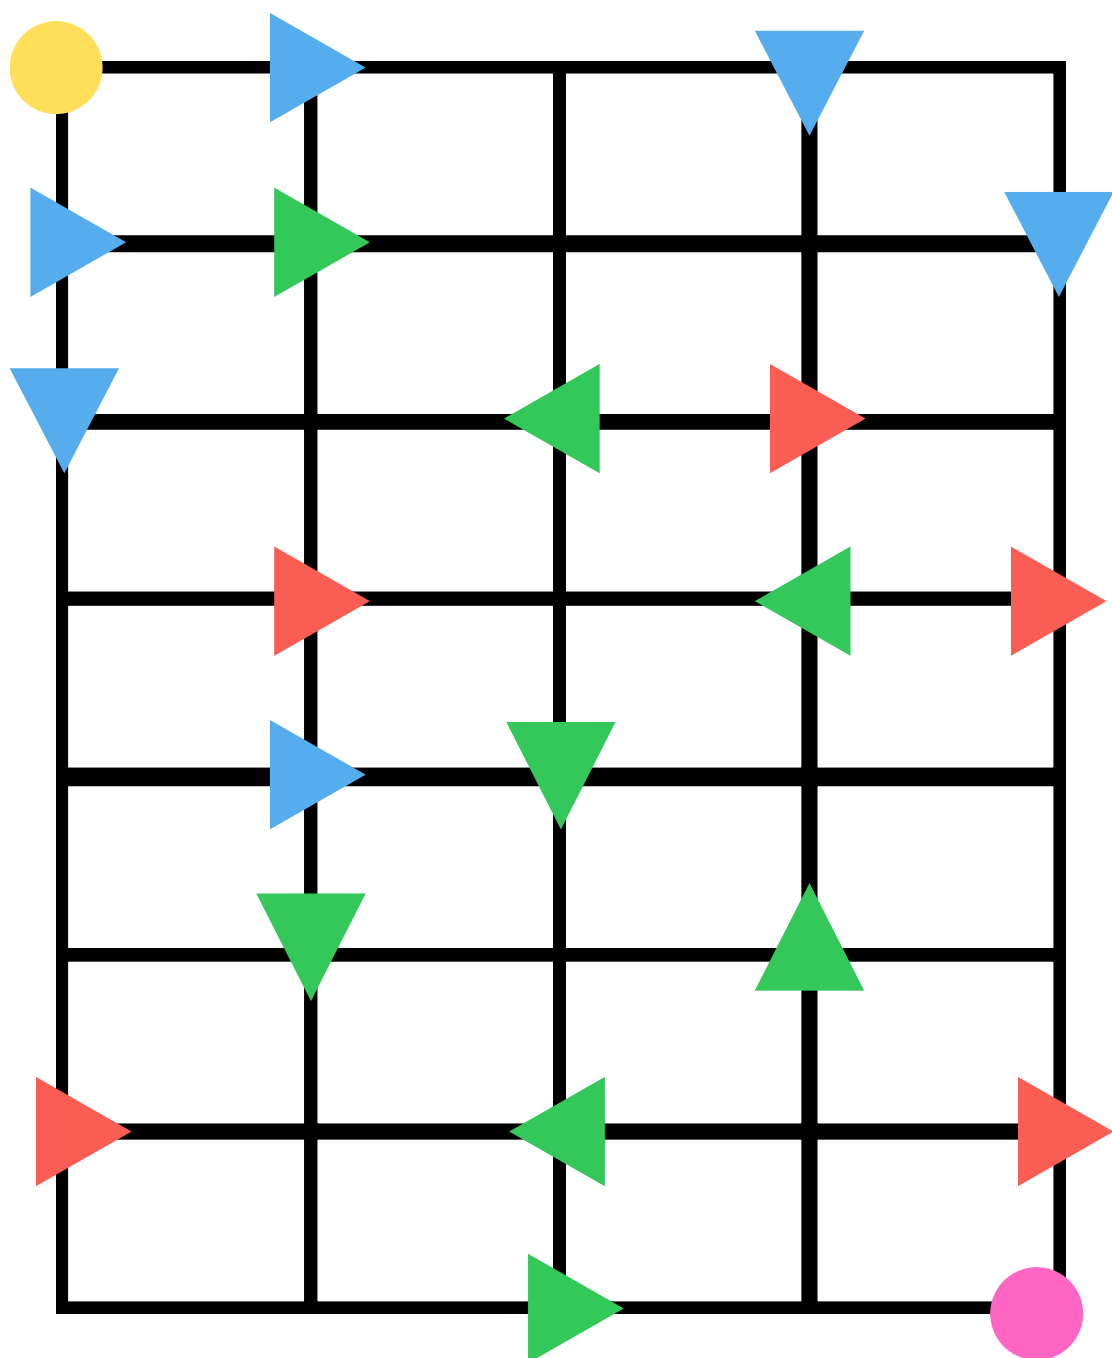

OR GATE
can pass only once

AND GATE
must pass twice and
not more

NOT GATE
cannot pass through

OR GATE
can pass only once

AND GATE
must pass exactly twice

NOT GATE
cannot pass through
